

January 1, 2016

Dear Valued Customer,

### **New Ownership at Precision Gage, Inc.**

We're pleased to announce that Charlie Beninati is once again heading up daily operations of Precision Gage, Inc. as its new owner, effective January 1, 2016. Some of you might recall that Charlie owned and ran Precision Gage from 1984 – 2001. He brings back with him a sound understanding of the Precision Gage business and a drive to serve you, the customer.

Ultimately, this means increased up time for your business. Here's how:

- We are hiring additional staff and technicians to decrease turn-around time and improve the quality system.
- Kenneth Chapp (current Precision Gage owner) will continue to partner with us to provide full-time repair services on premises.
- Through our parent company, C-6 Inc., we will be able to provide A2LA-accredited dimensional services.

Should you have any questions about the transition of ownership or the services we offer, please contact:

Charlie at - [charlie@c-6inc.com](mailto:charlie@c-6inc.com) or 720-301-9242

Donna at - [PGI@PGInc.comcastbiz.net](mailto:PGI@PGInc.comcastbiz.net) or 303-427-1113

We look forward to serving you.

Excited for what's to come,

Charlie Beninati

Kenneth Chapp
